

MYRMICA SCAPES (workers)
specimens viewed from behind,
perpendicular to scape dorsum
(square-on to funicular hinge)
showing diagnostic angular rotation
of bend process.

***M. scabrinodis* (Stoke Common,
Bucks 24.vii.2002)**

- scape process rotated ca. 45deg
off dorsum towards viewing posn.

***M. specioides* (Winterton,
E Norfolk 18.vii.1981)**

- scape process rotated only slightly
off dorsum towards viewing posn.

***M. sabuleti* (Gore Heath,
Dorset 10.v.2011)**

- scape process rotated only slightly
off dorsum towards viewing posn.
